Comfort for life

Daikin is a global leader for indoor comfort, with millions of systems installed throughout the world.

Daikin has been improving the comfort of its customers with exceptional products and services for many generations.

To explore all of our solutions for premium indoor Comfort for Life, visit www.daikincomfort.com.

Elevate your expectations and get more out of your home's indoor comfort system performance

As you think about the functionality of your home's indoor comfort system, the Daikin brand is ready to help you achieve control, energy efficiency and long-term peace of mind. Take that attention to quality one step farther by choosing a Daikin brand energy-efficient gas furnace. We have designed and engineered all of our products to provide years of consistent indoor comfort – delivering you and your family premium *Comfort for Life*.

Bold performance

A better understanding of how people inhabit their living spaces has led to products designed to create indoor environments that help use energy resources more effectively. And a Daikin brand high-efficiency gas furnace with modulating gas valve and variable speed blower provides the ultimate in efficient and economical heating performance. Unlike single-stage gas furnaces that operate “all on” or “all off”, a Daikin modulating, variable speed gas furnace minimizes energy use by running at the lowest possible fan speed, and producing just the right amount of heat to keep a steady, comfortable temperature in your home.

Unique and dependable heat exchanger for your added comfort

A heat exchanger often is considered the essential component of any gas furnace. A Daikin brand gas furnace is engineered with a unique heat exchanger constructed from tubular stainless-steel. Additionally, this gas furnace has a stainless-steel secondary heat exchanger. The use of wrinkle-bend technology in the primary heat exchanger results in an extremely durable heat exchanger. This design helps to maximize the ability to provide high levels of indoor comfort regardless of the outside temperature.

Count on a Daikin brand gas furnace to deliver premium comfort for life to your family for years and years.

The Daikin Comfort Promise

Ultimately, the commitment to provide you with Comfort for Life is represented and reinforced in the Daikin Comfort Promise.

If, for any reason, the Daikin Comfort Professional or the Daikin equipment has not met your expectations within one year of your equipment or system installation, please contact the installing Daikin Comfort Pro and ask them to honor the Daikin Comfort Promise. The Daikin Comfort Pro will return

to your house to resolve any issues that you have with your installation or equipment. If necessary, your Daikin Comfort Pro will replace the original equipment at no cost to you.

As part of formally maintaining the Daikin Comfort Pro distinction, the Daikin Comfort Pro will make all reasonable efforts to resolve any concerns you have within one year of your equipment installation. If a Daikin Comfort Professional does not meet your expectations, they risk not having the ability to sell Daikin products.

With the Daikin Comfort Promise, you can have peace of mind that your Daikin Comfort Professional will continue to earn your business well after the sale. If not, they cannot be a Daikin Certified Professional. Period.

COMFORT-ENHANCING FEATURES:

- 1 Primary tubular stainless-steel heat exchanger for ultimate durability and heat transfer
- 2 Secondary stainless-steel heat exchanger for increased efficiency and additional comfort
- 3 Efficient and quiet variable-speed motor gently ramps up or down according to furnace performance demand
- 4 Quiet, variable-speed induced draft blower provides precise control and enhanced energy-efficient performance
- 5 Durable silicon nitride igniter eliminates the need for an energy-wasting pilot light
- 6 Self-diagnostic control board continuously monitors the system for consistent, reliable operation
- 7 Heavy-gauge steel cabinet with durable baked-enamel finish resists corrosion and protects essential components
- 8 Fully-insulated heat exchanger and blower section supports added energy-efficient operation

Continuous air circulation

– Provides added filtration and keeps air moving throughout your home to help maintain comfort.

Daikin brand furnaces are designed to maintain indoor comfort and energy-efficient operation.

ADDITIONAL INFORMATION

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

"I'm a Daikin Comfort Pro"

Those five simple words can offer you comfort like you've never experienced. The words mean that the dealer you invited into your home is a highly-qualified and continuously-trained professional who will quickly, efficiently and effectively help to solve any of your indoor comfort needs.

All Daikin Comfort Pro dealers seek to achieve the highest levels of customer service, business integrity, and technical competency. These range from maintaining an excellent rating with their local Better Business Bureau (BBB) to taking continuing education classes on how best to install and service Daikin brand products. To retain this status, Daikin Comfort Pros must deliver their best abilities to each and every customer, year after year.

A commitment to your comfort

Daikin Comfort Pros believe that a well-informed homeowner is the best possible customer. All Comfort Pros will take the time to help understand your unique comfort needs, assess the performance of your current indoor comfort system, and thoroughly discuss all options with you.

A commitment to provide the right service and products

Daikin Comfort Pros have access to one of the most complete lines of indoor comfort products and systems available. As the #1 manufacturer of indoor comfort systems and refrigerants in the world, Daikin offers you a full line of comfort solutions that ensures that a Daikin Comfort Pro can provide the perfect solution to your home.

A commitment to serve over the long term

Daikin Comfort Pros want to earn your business. They want to be your long-term provider for all your indoor comfort needs. To help deliver on this commitment, you can take peace of mind with the limited warranty coverage offered on your Daikin brand indoor comfort product or system. The Daikin Comfort Pro has access

to one of the best limited warranty* programs in the indoor comfort industry. While many brands offer a standard 10-year parts limited warranty option, Daikin brand products include a 12-year parts limited warranty*.

Like any high performance machine, Daikin brand indoor comfort components and systems require regular maintenance to ensure optimum performance. When you commit to having regular preventative maintenance on your Daikin brand indoor comfort component or system, an additional 12-Year or a 6-Year Unit Replacement Limited Warranty* will be provided upon timely registration. The additional limited warranty* coverage will result in a new unit provided to you at no cost should either the compressor or heat exchanger fail to the original, registered homeowner as long as you live in the home. In a central air conditioning or heat pump system, the compressor is considered to be a critical and costly component to replace. The heat exchange in a gas furnace is a prime component for the operation of a gas furnace. With the Daikin brand, your comfort extends way beyond just controlling the temperature in your home.

*Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year or 6-Year Unit Replacement Limited Warranty, Lifetime Heat Exchanger Limited Warranty (good for as long as you own your home) or 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Additional requirements for annual maintenance are required for the Unit Replacement Limited Warranty. Online registration and some of the additional requirements are not required in California or Quebec.

DAIKIN BRAND GAS FURNACES ARE PROUDLY ASSEMBLED IN TENNESSEE AND TEXAS.

DAIKIN: THE PREMIUM BRAND INDUSTRY LEADER

Daikin Industries, Ltd. (DIL) is a global Fortune 1,000 company which celebrated its 90th anniversary in May 2014. The company is recognized as the largest HVAC (Heating, Ventilating, Air Conditioning) manufacturer in the world. Daikin is primarily engaged in developing indoor comfort products and systems and refrigeration products for residential, commercial and industrial applications. Its consistent success is derived, in part, from a focus on innovative, energy-efficient and premium quality indoor climate and comfort management solutions.

Improving your home's complete indoor comfort system should not be an afterthought

Whether it's time to replace a component in an existing central HVAC system, or to install a totally new system, Daikin brand products can provide dependable comfort and efficiency for your family – for every season – *Comfort for Life*.

Clean Comfort™ indoor air essentials

Indoor comfort in your home is about more than just adjusting the temperature on the thermostat. In fact, a central heating and cooling system offers just the basics with regard to enhanced comfort for you and your family. Indoor air quality products and systems quite frequently are treated as accessories. We define them as indoor air essentials:

- Filtration
- Purification
- Ventilation
- Humidity Control
